THE Country Club will come in for a large share of attraction these rainy days when society spends much of its time in the open, either on the golf links or motoring. At the Country Club this afternoon Mrs. Robert B. Pegram will pour tea. She will be assisted in receiving by Mrs. Stuart Howe, Mrs. N. Walter Hubbard, Mrs. Allen Lyon, Mrs. W. H. Miles and Mrs. John A. Coke, Jr. Yesterday, Mrs. Anna Cussen entertained at a small luncheon at the club. The table was set with pink tulips. Miss Isabelle Carter will be hostess at dinner this evening. The table will be set in the main dining-room and decorated with pink and white flowers.

Admiral Webster's Lecture.

Admiral Webster gave a remarkably interesting lecture Thursday evening in the lecture room of the Seventh Street Christian Church. His subject was "China—Its Customs and Constitution." The fact that Admiral Webster has spent so many years of his life in the East made his lecture both enlightening and entertaining, and his audience was most enthusiastic in their reception. The lecture was illustrated with slides.

SWITCHING RATE GREATLY REDUCED

Petition From Norton Settled by Agreement With Corporation Commission.

WILL SPEAK ON CHILDREN

Noted Experts Coming—New Dairy Official Works to Build Up Industry.

By agreement consummated yesterday by the attorneys before the State Corporation Commission, the matter of switching charges on coal in the town of Norton is settled. The commission issued its order covering the terms of the agreement.

A few weeks ago the Norton Light and Power Company, whose name indicates its purpose, filed its petition asking that its plant, which is located on a spur track just outside of the yard limits, be held to be within those yards. The intention was to secure lower switching charges by being within the yard.

It was alleged by the petitioner that the Louisville and Nashville Railroad Company insisted upon a charge of 25 cents per ton on coal placed at its plant, unless the company would buy coal from some mine located on its line. This the company was unwilling to do, and asked that it be granted rates under the general terms within the yards.

Under the agreement the charge is to be \$5 per car. Inasmuch as the old rate of 25 cents per ton would have meant perhaps \$12.50 per car, and the cars used there would hold about fifty tons, it will be seen that a great saving is effected. The commission there-

fore entered the following order, following which the case was stricken from the docket without a hearing:

"The rates heretofore charged by the defendant of 25 cents per ton for switching cars from the yard of the defendant to the plant of the petitioner, in the town of Norton, Va., is annulled, and in lieu thereof a flat rate of \$5 per car is substituted, which said \$5 per car shall cover the moving of every loaded car one way and the return of the said car empty, or the placing of an empty car and returning it loaded, and in the event an empty car is ordered for loading, and the service of switching or placing it has been performed, and the car is not loaded, a switching charge of \$5 per car is likewise to be paid. This order is to be effective from and after the 1st day of March, 1911, and as long as conditions remain as at present."

Eventual success for the proposal to have a joint Memorial Day celebration by the various secret lodges of the Southside was assured at a meeting of the general memorial committee last night in the office of Sergeant Saunders, in the courthouse.

Representatives from twelve lodges were present, armed with the assurance that their respective lodges would back them in whatever action the general committee would take.

The first Thursday in June was selected by the committee to be hereafter the Memorial Day for the dead of the Southside secret orders buried in Maury Cemetery. This year Memorial Day will be June 1, and the exercises will take place on that date.

The arrangement of details of the exercises was left entirely in the hands of a program committee, consisting of A. L. Sampson and J. W. Morrisett, who were joined last night by the committee on music, flowers and speakers, were instructed to report the result of their actions at a meeting of the general memorial committee to be held on April 14.

Except for the Manchester Lodge of Elks and chapter of Masons, which have memorialized the general committee, all the Southside organizations will be represented. Committees from the lodges were present at the meeting last night to report on their work.

Negro May Get Well. Although terribly cut and bruised, Thomas Gray, colored, living on South Second Street, who was struck Thursday afternoon by the Durham train of the Southern Railway in South Richmond, is expected to survive his injuries at the City Hospital, where he was carried immediately after the accident.

Professor Saunders finds the greatest difficulty in the lack of support given by the farmers. Herds run down, and the farmer becomes discouraged. The remedy is to make the matter a study, so that the producer will keep his herd up to a high standard by breeding and care.

P. W. Guse, of Madison, Wis., the new dairy inspector, has begun his duties. It will be his work to inspect dairymen and farmers to inspect their product.

The work of testing cattle for tubercular infection continues. A herd has just been tested at Culpeper, and of the twenty-nine cows there was not a single reaction. Good results have recently been had in a number of cases.

The result is that there still remains a part of the State appropriation to reimburse stock raisers who suffer loss as the result of condemnation of cattle following these tests. The Department of Agriculture at Washington furnishes the expert and the material for the testing.

Many Still Unlicensed. About 1,750 automobiles privately owned have been licensed so far to operate on the roads of Virginia for 1911. This does not include the dealers, of whom forty have been licensed in this State for the year. It is believed that the number carrying licenses is fully 1,800 short of the actual number using the roads, although it is anticipated that with the opening of spring some of the owners in Washington and at other points near the State will take out license. New automobiles are daily added to the list.

LIVED IN THREE CENTURIES. Negress Dies at Age of 112 Years. Herity Drinker and Smoker.

(Special to The Times-Dispatch.) Suffolk, Va., March 10.—"Aunt" Nancy Shepherd, who had lived in three centuries, died here to-day. The most authentic proofs fix her age at 112 years, though lifelong residents reckon her years as several more.

Nancy was born in Nat Turner's husband fought in Nat Turner's insurrection in 1831, which fixes the date of her birth the year of George Washington's death. She was happy and hearty up to last night, when she ate a good supper. She could see well and talk rationally, but her hearing was impaired. Nancy was an undersized mulatto, weighing eighty pounds, was an inveterate smoker, and had been drinking since the memory of the oldest inhabitant. She smoked a short-stemmed clay pipe almost constantly. Her favorite drink was gin, though she had no aversion to whiskey and brandy.

"Aunt" Nancy's children died of old age, and other descendants are widely scattered.

In Oak Grove Court. About one-half of the colored population of Oak Grove appeared in fear and trembling before Magistrate Cleatham yesterday morning in the Oak Grove court, and received justice at his hands.
